

KEY INFORMATION DOCUMENTS – LISTED DERIVATIVES

If you are a retail client in the European Economic Area transacting with us in a Packaged Retail and Insurance-Based Investment Product (“PRIIP”), we are required, under the PRIIPs regulation, to provide you with the Key Information Document (“KID”) for that PRIIP prior to your transaction. The KID is a three-page document produced by the product manufacturer, which contains certain prescribed information about the PRIIP.

For listed derivatives, the relevant exchange where the derivative is listed is the product manufacturer and they are responsible for producing the KID. We have set out below links to their websites where they have made their KIDs available.

Please note, however, that the publication of KIDs on this website does not constitute an offer or a recommendation to enter into any transaction, to participate in any investment strategy or to invest in any PRIIP and, where we publish PRIIPs for which we are the product distributor and not the product manufacturer, we do not give any representation, warranty or undertaking as to the accuracy or completeness of the information contained in the KIDs as these have been produced by the relevant product manufacturer.
