

Be aware of currency risk. As the base currency of the Fund is USD, you will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

This product does not include any protection from future market performance so you could lose some or all of your investment. If the Fund is not able to pay you what is owed, you could lose your entire investment.

Investment \$10,000		10 Years (Recommended Holding Period)
Performance Scenario		
Unfavourable Scenario	What you might get back after costs	\$16,846
	Average return each year	5.35%
Moderate Scenario	What you might get back after costs	\$22,677
	Average return each year	8.53%
Favourable Scenario	What you might get back after costs	\$31,024
	Average return each year	11.99%

Market developments in the future cannot be accurately predicted. The scenarios shown are only an indication of some of the possible outcomes based on recent returns. Actual returns could be lower.

This table shows the money you could get back over the next 10 years, under different scenarios, assuming that you invest \$10,000.

The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products.

The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the investment/product.

This product cannot be cashed in. This means it is difficult to estimate how much you would get back if you cash in before the end of the recommended holding period. You will either be unable to cash in early or you will have to pay high costs or make a large loss if you do so.

The figures shown include all the costs of the product itself, and include the costs of your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The Fund may make distribution payments, in cash and/or in-kind, to investors. Please refer to the Offering Memorandum and the Fund's articles and memorandum for full details on the distribution and withdrawal processes.

What happens if Citi Private Advisory, LLC is unable to pay out?

You may face a financial loss due to the default of the Fund. These losses are not covered by an investor compensation or guarantee scheme. The assets of the Fund are segregated from the assets of the manufacturer. Therefore, in case of default of the manufacturer the assets of the Fund will not be affected.

What are the costs?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the product itself, for the recommended holding period and include the costs of your advisor or distributor. They include potential early exit penalties. The figures assume you invest \$10,000. The figures are estimates and may change in the future.

Investment Scenarios \$10,000	If you cash in after 10 years (recommended)
Total Costs	\$5,564
Impact on return (RIY) per year	3.48%

The table below shows the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period (10 years) and the meaning of the different cost categories.

One-off Costs	Entry Costs	0.13%	The impact of the costs you pay when entering your investment. This includes the costs of distribution of your product.
	Exit Costs	0.00%	The impact of the costs of exiting your investment when it matures.
Ongoing costs	Portfolio transaction costs	0.00%	The impact of the costs of us buying and selling the underlying investment for the product.
	Other ongoing costs	3.35%	The impact of the costs that we take each year for managing your investments plus other recurring costs.
Incidental costs	Performance fee	n.a.	The impact of the performance fee.
	Carried Interest	n.a.	The impact of carried interest.

The costs figures above are an estimate of the costs that may be incurred by the investor. Carried interest of 20.0% is charged at the Master Fund level subject to a performance hurdle of 8.00% per annum to investors. Please refer to the Master Fund's confidential offering memorandum for more details.

How long should I hold it and can I take money out early?

The recommended holding period of the Fund is expected to be 10 years. This term covers the expected investment and divestment periods for the Master Fund's investments. Given that private equity investments should be considered over a medium to long term holding period, investors should be prepared to hold their interest at least until the end of the recommended holding period.

Interests in the Fund are not freely transferable, are not readily tradable on any exchange or market, and there are no redemption or withdrawal rights. As a result, interests must be held on a long-term basis. The investment period is five years from the Effective Date (as defined in the Offering Memorandum). The end of the Fund's term is not expected to be later than the tenth anniversary of the Effective Date (such anniversary date, the "Initial Liquidity Opportunity Deadline Date") and upon every successive four-year anniversary of the Initial Liquidity Opportunity Deadline Date, the general partner of the Master Fund shall use its best efforts to facilitate a partner liquidity option whereby each limited partner of the Master Fund shall be offered the opportunity to sell all or a portion of its limited partner interest in the Master Fund to one or more prospective purchasers through a secondary tendering process administered by the general partner of the Master Fund (each, a "Liquidity Opportunity") under such terms and conditions as determined by the general partner of the Master Fund in its sole discretion.

Any limited partner that fails to make, when due, any portion of the capital contribution to the Fund required to be contributed by such limited partner pursuant to the Fund's exempted limited partnership agreement, may in the discretion of the General Partner of the Fund, be subject to the processes and remedies regarding default by a limited partner as described in the Offering Memorandum and exempted limited partnership agreement of the Fund and the limited partnership agreement and offering memorandum of the Master Fund.

How can I complain?

Should you have a complaint about the Fund, Citi Private Advisory LLC and/or any person advising on or selling the Fund, please contact your Private Banker directly. Alternatively, you can submit your claim in writing for UK booked clients to CPB UK Complaints, Citi Private Bank, Citibank N.A., London Branch/Citibank Europe Plc (UK branch), Citigroup Centre, Canada Square, Canary Wharf, London E14 5LB or by email to cpbukcomplaints@citi.com.
